NEW PRODUCT!

- The XHR 200 was designed to be compact enough to fit in the back of a pickup truck. The small footprint of the XHR 200 allows for convenience on job sites where the trailer of the XHR 700 may be too large.
- Like the XHR 700, the XHR 200 provides safe, clean, and dry heat.
- No flames or fumes makes the XHR the perfect choice for job sites where an open flame or risk of spark may be too dangerous.

THE XHR 200 OFFERS..

- Air intake shut off
- Auxiliary fuel port
- Fork pockets
- Simple operation and low maintenance
- Easy access for service points
- Power distribution- two 120 Volt, 20 Amp outlets
- Single point lifting hook
- Optional light tower- 12,000 lumens
- Integral fuel tank (coming soon)
